

My wife and I listen to KLOVE radio every day. We find it very encouraging and uplifting to hear the positive music and programming provided by this station. If our KLOVE station was replaced by an LPFM broadcaster, our community would no longer be able to receive the positive outlook provided by KLOVE which would be a detriment.

KLOVE provides a message of hope that is needed. Please do not choose to allow the LPFM stations to take priority over the current FM translator service.

Thank you,

David Bruechert
